

# CAUCUS

This is the first record in the US by Caucus, also their first time on vinyl. Prior to this release they have put out two CDs in their native Japan. Both of them are fantastic and produced by the legendary Kramer! Caucus are a fresh and energetic combo that mixes Rocketship (who they cover on the B-side), The Pains of Being Pure at Heart, The Mighty Lemon Drops and Venus Peter in the same bag. A blast of guitars that flow between shoegaze and indiepop. You'll love the delicious exchange of boy/girl vocals on the single track Wandering Ones. Irresistible! A true hit!

Caucus have played SXSW 2010 and NYC Popfest 2011.

'Wandering ones' is a three minute pop nugget with joint male and female vocals. It sounds like an energetic the Mighty Lemon Drops with a Kramer production. Cloudberry releases never lets the indie kids down. - Rough Trade
