

SIGNED PAPER CUTS

Signed Papercuts are a Swedish band that makes noise blending indie pop and shoegazing with swirling guitars, crashing drums and vocals breaking through, desperate to be heard. The band was formed in Alingsås, town of potatoes and indiepop, by Daniel (vocals, guitar), Fredrik (guitar), Clara (bass), Miralda (keyboards, vocals) and Stefan (drums). They released a demo back in 2006, and later in 2007 a 3" CDR on Cloudberry Records that included the hit song Nothingness. This small treat has long been sold out. After contributing a song to the compilation If you Like Everything, There's Nothing Left to Love released by the influential Skatterbrain blog, they put out this, their last release, the lush and energetic Of My Heart single. On the B side comes the second part of the brilliant Sound of Silence that appeared on the 3" and it's as brilliant or better than the first. Artwork comes from the extraordinaire illustrator Danny Zabbal.

Monumental Shoegaze Brilliance from Sweden = Signed Papercuts

SWEDESPLEASE

"Signed Papercuts" are one of the most energetic and genuine indie band on which I recently stumbled upon. Their music has the power to melt the dark side of indie jingle-softness with sparks of the most intense and bright punk explosive energy. Shit-gazing? Possibly. Cool-pop from Sweden? You bet!
